- IBM Lotus Notes/Domino
- Microsoft SharePoint 2007 & 2003 incl. eConnector
- Send To Database
- Send to Email/Exchange Server
- Send to Local/Network Folder (SMB or FTP) incl. eConnector
- Send to Lan Fax Servers incl. eConnector
- Send to Printer incl. eConnector and PDF print

NO PAGECOUNT / FIRST YEAR MAINTENANCE INCLUDED!

- AutoStore Express cannot be combined with other route components.

AutoStore Express Device Licenses

ASExpress DeviceCapture for: Canon, EFI SendMe Device, HP MFP/Digital Sending Device, HP 9100c Device, HP 4100/9000 Device, HP 9055/9065 Device, IKON DocSend Device, Kodak ScanStation, Kyocera Device License, Ricoh SDK/J - 1.x Device, Ricoh SDK/J - 2.x Device, Ricoh GlobalScan 1.x and 2.x Devices, Sharp OSA Device, Xerox CentreConnect (EIP) Device, Xerox WorkCentre Pro Device.

AutoStore Express Barcode & Image Processing

AutoStore Express to AutoStore Workflow Upgrade

Basic capture solution to integrate MFPs and ScanStations into basic document management scenarios, like scanning to Microsoft SharePoint or Lotus Notes. AutoStore Express also offers OCR capabilities and basic barcode/image processing.

AutoStore Workflow is licensed per device and has the following components shipped with every device license:

AutoStore

AutoStore Capture Modules

- The ordered capture component, includes e.g. a device license for an MFP, ScanStation or a QuickCapture Pro desktop license.
- 10 x AutoCapture Licenses
- 10 x Send To PC Licenses

Process Modules

- Abbyy FineReader OCR for 1 process at the same time (*full text OCR, conversion of documents into various file formats*)
- Basic Image Management (*Deskew, Despeckle, Static Splitting / Basic Barcode not included with this module*)
- Data Interchange Component (*needed with Poll Directory to management a process*)
- Directory Services (*advanced browsing components for value extraction from LDAP directories*)
- eMail Notification (*sends a notification in the case of an error or a success event*)
- Encryption/Decryption (*allows the save transfer of files over open connections, such as FTP transfer*)
- Knowledge Package Builder/Loader (*used for inter process communication, e.g. used with clustering and load balancing*)
- MSG Outlook Message Loader (*extracts information from Outlook emails, which are captured using AutoCapture*)
- Professional Image Management (*empty page removal, advanced splitting, image cropping, image enhancements*)
- PDF Converter (*feature rich PDF converter for electronic files, to be turned into PDF*)
- Watermark (*creates watermarks on scanned documents, like the person who scanned the document and when*)
- Workflow Tracker (*allows to track information about the captured document in a database*)

Route Modules

- ApplicationXtender incl. eConnector
- Content Management Queue Capture/Route
- Documentum DM4 / DM5
- EASY ENTERPRISE.e / ELC
- FileNet Image & Content Services
- HTTP Forms Route
- Hummingbird DM Version 5 incl. eConnector
- IBM Content Server
- IBM Lotus Notes/Domino, Domino.Doc
- Imanage
- Interwoven NT/MP incl. eConnector
- Laserfiche
- Microsoft Exchange Public Folders
- Microsoft SharePoint 2001, 2003, 2007 incl. eConnector
- Open Text Enterprise Archive (IXOS)
- Open Text LiveLink 9.x incl. eConnector
- Saperion
- Send to Database incl. eConnector
- Send to Email/Exchange Server
- Send to FTP/SFTP incl. eConnector
- Send to Folder incl. eConnector
- Send to Lan Fax Servers incl. eConnector
- Send to Printer incl. eConnector and PDF print
- TRIM Captura
- TRIM Context incl. eConnector
- WebDav Route
- Westbrook FileMagic incl. eConnector
- Westbrook Fortis incl. eConnector
- Windream
- XML Router
- Xerox DocuShare incl. eConnector

NO PAGECOUNT / FIRST YEAR MAINTENANCE INCLUDED!

AutoStore Workflow is a complete capture middleware which can be used to import documents from MFPs, ScanStations, mail servers, file systems or MS Windows desktops. Documents can be processed with a wide range of modules for OCR, image management and routed into DMS, databases or other systems.
